Application/Control Number: 10/613,330

Art Unit: 3738

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. J. Feuchtwang on 12/1/2004.

The application has been amended as follows:

Claim 8, line 6, before "capture" insert --partially--.

## Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The claimed invention is directed to an acetabular component, comprising: an acetabular articulating component having a hemispherical shape and an inner surface forming at least a partial spherical cavity adapted to receive a femoral ball; an acetabular constraining component connected to the articulating component and having a spherical surface that is adjacent the inner surface to enlarge the spherical cavity to be more than a hemisphere to partially capture the femoral ball; and a locking mechanism formed on both the articulating and constraining components to removeably connect the

Application/Control Number: 10/613,330

Art Unit: 3738

constraining component to the articulating component; wherein constraining component has a semi-circular shape from a bottom view. Claim 16 defines the constraining component as being semi-circular and wedge shaped. The art fails to disclose or teach in combination a semi-circular constraining component in combination with an articulating component that serves to partially capture the femoral ball and a wedge shaped semi-circular constraining component.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to DAVID J ISABELLA whose telephone number is 7.03-308-3060. The examiner can normally be reached on MONDAY-THURSDAY.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, CORRINE MCDERMOTT can be reached on 571-272-4754. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Art Unit: 3738

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
